# Turnover

## Customer demands

- Volvo Trucks in Umeå started a pilot project called "Supply 2000+" in 1997. The goal of the project was to reduce the lead-time in the supply chain to the same or lower cost.
- All suppliers with more than 48 hours of lead-time from order to delivery were advised to be able to deliver parts from a local point. The demands on these suppliers was to be able to deliver a minimum of 2 times per day.
- Eco Glocal made the first delivery to Volvo Trucks in w.45 1999 as a logistic service provider. We are now delivering according to call offs up to every 40 minutes.
