

Odette FAI Analyzer version 1.0 – Appendix 1: Conditions for use and pricing

Issued 2014-03-04

Odette FAI Analyzer version 1.0 is available in two variants, "Standard" and "Open".

Maintenance fee

There is no annual maintenance fee for version 1.0 (se pricing information below). There will be an annual maintenance fee during 2014/2015 for companies who at that time decide to install an eventual updated version. The way this will be done depends on the possible wider acceptance of the concept as well as the number of future change requirements on the application that users will have.

Disclaimer of Warranty and Limitation of Liability

In no event shall Odette Sweden be liable for any direct or indirect damages caused by use of or non-performance of Odette FAI Analyzer.

Disclaimer: Future external factors might result in new demands on the application that cannot be met.

Usage of Qlikview®

Independent of variant any use of Odette FAI Analyzer will require availability of the software Qlikview®. Smaller users can get access to Qlikview® through a single-user license free of charge offered by Qlikview®. For questions regarding license for use of Qlikview®, please contact Henrik Jansson (Henrik.Jansson@qlikview.com).

Access rights

Customers should order the application per site (or similar) for which the application will be used. Odette FAI Analyzer is intended for use on both inbound and outbound flows.

The customer is not entitled to resell, circulate or use the application for any other purpose or site than what has been agreed.

*Odette FAI Analyzer tillhandahålls av Odette Sweden

** Odette recommendation LG07:"Forecast Accuracy Measurement", kan beställas från Odettes Nationella organisationer, gratis för medlemsföretag.

Price list for the application Odette FAI Version 1.0

VAT is not included in prices below.

Variant	Description	Price	Discount price for members in NAF Odette Sweden
Standard	This version is locked in the sense that logic in the application cannot/is not allowed to be modified or altered. This version produces results in line with the Odette Sweden recommendation.	12.900 SEK	0 SEK
Open (includes also Standard variant)	This version could be modified (with Qlikview®). The open version has a wider functionality allowing internal adaptations for tailor made reporting. The open version brings access to source code and syntax which the customer could use for developing internal applications for use in business units with own contracts for use of Odette FAI Version 1.0, Open.	25.800 SEK	13.200 SEK
