

Scania.OFTP2

- **Scania has now an OFTP2 solution in operation**
- **By recent pilot implementations we have six OFTP relations in production.**
- **A policy and plan for broad OFTP2 migrations will be set up in the near future**
- **From now on OFTP2 will be the first alternative for new communication relations**
- **To a limited extension Scania will initiate OFTP2 migrations triggered mainly by high file frequency and by very large files (CAD)**

Scania.OFTP2

- **To a limited extension, Scania will accept supplier requests for OFTP2 migrations**
- **Only TLS will be applied, for security**
- **Only CA certificate are accepted**
- **Scania strongly recommends use of the Odette TSL list, and certificates authorised by CA:s in this list**
- **Other accepted CA:s are not yet accepted, but some might be**
- **Partners server host name shall be given in Common Name (CN) of the certificate. Scania will perform reverse look up for partners connecting to us.**
